KAMLOOPS CITY BY-LAWS.

BY-LAW No. 27.

THE CITY OF KAMLOOPS LOCAL IMPROVEMENT BY-LAW, 1898.

A By-law to Provide for the Assessment of Real Property Benefited by Local Improvement.

WHEREAS it is provided in the "Municipal Clauses Act," Revised Statutes of British Columbia, 1897, that the Council of a City Municipality may pass by-laws for assessing real property benefited by certain classes of local improvements:

And whereas it is expedient that the provisions of the said Act in respect to certain of such local improvements should be applied to the City of Kamloops:

Therefore the Municipal Council of the Corporation of the City of Kamloops enacts as follows:—

1. The cost of constructing such of the works and improvements mentioned in section 245 of the aforesaid "Municipal Clauses Act," and the sub-sections thereof, as are referred to in this By-law, shall be assessed, levied and collected by means of a special rate or tax for local improvements, upon the real property benefited thereby.

2. The said Municipal Council may by resolution determine and specify what work or improvements it is desirable to have carried out.

3. On the passage of such resolution, and after it shall have been entered in the minutes of the Council, copies thereof shall be transmitted by the Clerk to the City Engineer and City Assessor.

4. On the receipt by the City Engineer of a copy of the said resolution it shall be his duty to proceed at once to ascertain and determine the said works or improvements, and to make, and certify as correct, a plan or description thereof, and to make an estimate of the expenses or cost thereof, and to ascertain, determine and show on said plan what real property will be immediately benefited by the proposed improvements, and the City Engineer and City Assessor shall, after such plan has been made and certified conjointly, ascertain and determine the proportion in which the assessment is to be made on the various portions of the real property so benefited, and shall make a joint report of all such matters to the said Council, which report, when approved of and adopted by the said Council, shall be entered by the City Clerk in a book to be kept for that purpose to be called the "Local Improvement Book," and a copy of the plan aforesaid shall be made by the said City Engineer and filed in the office of the City Clerk.

5. The said report of the City Engineer and City Assessor shall state:—

(a.) What real property will be immediately benefited by the proposed improvements:

(b.) The probable lifetime of the improvement.

(c.) An estimate of the probable cost of the proposed improvements and the amount thereof which should be assessed against the property immediately benefited:

(d.) The proportions in which the assessment should be made on the various portions of the real property so benefited.

6. It shall be the duty of the Sanitary or Sewerage Engineer, when so authorised by a resolution of the Council, to perform the duties set forth in this By-law as being required of the City Engineer.

7. In ascertaining and determining the cost of laying, making, enlarging, or constructing, or prolonging any main or common sewer, the said City Engineer and the said City Assessor shall estimate the cost of the construction of branch sewers to the line of the street, and include the cost of such branch sewers in estimating the assessment for such sewers or common sewers, and report to the Council thereon.

8. In any case where, in order to afford an outlet for the sewerage and drainage of real property other than that fronting or abutting upon a street in which a sewer is, or is proposed to be hereafter constructed, such sewer shall be constructed of a larger capacity than that which is in the opinion of the said City Engineer and the said City Assessor required for the efficient sewerage and drainage of the real property fronting or abutting upon the street, then and in every such case the said City Engineer and the said City Assessor shall estimate, determine and report to the Council what amount of special assessment should, in their opinion, be imposed on the other real property benefited by the construction of such sewer or drain.

9. When a vacant space intervenes between the line of a street and a building into which or under which a sewer pipe is to be taken to connect with any sewer, the cost of laying the sewer pipe across such vacant space and under such building shall be payable and paid by the owner of such real property so to be connected with such sewer, and until paid shall be a charge on such real property.

10. In all cases where a main or common sewer is or shall be laid in any street or through any lot of land, the said City Engineer and the said City Assessor shall, in accordance with the provisions of section 8 of this By-law, ascertain and determine the cost per foot frontage of such main or common sewer upon the lots (except corner lots) on each side of the portion of the said street or on the lands on each side of the said sewer in which or through which the said sewer shall from time to time be laid. In case any of such lots are corner lots the assessment shall be one-half the said rates, and the said Engineer and the said City Assessor shall so report.

11. All work rendered necessary for the purpose of the Municipal Corporation creating a public street by opening a new street or by the widening or extending of an existing public street and the grading or macadamizing or paving or sidewalking of the public street thus created, and any work necessary for the purpose of paving a public street which has been taken charge of by the Municipal Corporation expending public money thereon, shall be deemed to be a work of local improvement, and the estimated cost and expense connected with such work shall be assessed, levied, and collected by means of a special rate or tax for local improvement upon the real property benefited thereby, and the City Engineer and the said City Assessor shall, except as is provided for in sections 9 and 14 of this By-law, ascertain and determine the cost of such improvement or work per foot frontage of all real property fronting or abutting upon the street or place wherein or whereon such improvement or work is proposed to be made or done:

Provided that in any case where the owner of real property constructs a paved sidewalk upon a public street along and in front of his premises, the Corporation may pay to such owner as a portion of the cost thereof, a sum of money out of the general revenue equal to the cost of a plank sidewalk covering such space so paved, provided a requisition is first approved and a warrant issued authorising the payment to be made.

12. In case when it is the duty of the City Engineer and the City Assessor to ascertain and determine the proportion of assessment for local improvements, works and services on corner lots, triangular or other

irregular shaped pieces of land situated at the intersections or junctions of streets, the said Engineer and the said Assessor shall recommend what, in their opinion, would be an equitable mode of assessment by having due regard to the situation, value and superficial area of such lots, as compared with adjoining lots and pieces of land accessible for such improvements, works and services, and may charge or assess the amount of any allowance made on any such lot or piece of land or the other real property fronting on the improvements, or assume the same as a portion of the Municipality's share of the improvement as may seem equitable and just.

13. In ascertaining and determining the assessment to be made on lands on either side of a street, lane or alley, which are from any cause unfit for building purposes as compared with the building lots fronting on said street, lane or alley, the said Engineer and the said Assessor shall, in all cases, determine in what proportion the assessment for any local improvement shall be borne by the lands on each side of such street, lane or alley.

14. When the local improvement shall consist of any of the work referred to in section 1 of this By-law, and it shall seem to the said Engineer and the said Assessor inequitable to charge the whole of the cost of the improvement on the lands fronting thereon, the said Engineer and the said Assessor shall report and recommend as to what lands are benefited by such work or improvements, and the proportion in which the cost thereof shall be assessed against the land so benefited.

15. So soon as the report of the City Engineer and the City Assessor shall have been received and the report of any amendment thereof shall have been adopted by the Council and entered by the Clerk in the Local Improvement Book as aforesaid, the Clerk shall, save as provided in the following section, cause a notice to be inserted in at least one newspaper published in the City, to the effect that the said report, or a necessary part thereof, is open for inspection at the office of the Assessor, and it shall be the duty of the Assessor to see that such report, or part thereof, is open for the inspection of all persons during office hours.

16. No such published notice as aforesaid shall be given when the proposed improvement consists of the construction of branch sewers to connect any real property with a common sewer, or connecting any building with a branch sewer, or making necessary house or building connections with such sewer, or of laying a sewer pipe across any vacant space and under any building when such vacant space intervenes between a line of a street and such building. In all such cases the cost of the same shall be payable and paid by the owner of such real property so connected with the sewer, and shall be a charge upon such real property, and if any damage be done to this portion of the sewer or its connections or its fittings, either by neglect or otherwise, the cost of the same shall be paid by the owner of the real property, and shall be charged as aforesaid, whenever the Council authorise and have made the repairs to the same.

17. If within a period of fifteen days from the date of the first publication of such notice as aforesaid, any petition is presented against any improvement of which notice has been duly advertised, as provided, it shall be the duty of the Assessor to ascertain, and in accordance with sub-section 21, section 245 of the said "Municipal Clauses Act," and report to the Council whether the said petition is signed by a majority of the owners of such real property, representing at least one-half in value of such real property as shown upon the last revised assessment roll, and to certify his findings upon the said petition, and to report the same to the Council.

18. Should such petition as aforesaid not be presented to the Council, or should the Assessor certify on any petition that may have been presented, that said petition is not signed by a majority of the owners of such real property as may be affected by the proposed improvements, and representing one-half in value of such property, then and in each case the Council shall proceed with the proposed improvements under such terms and conditions as to the payment of the cost of such improvements as the Council may by By-law in that behalf regulate and determine, and the assessment roll showing the property and the amounts assessed for the local improvement shall be prepared and be open for inspection at the office of the Assessor.

19. Any by-law or by-laws containing any provision or provisions which may be or which are inconsistent

with or repugnant to the provisions of this By-law, is and are hereby repealed in so far only as the same are so inconsistent or repugnant, but not otherwise, so as that full force and effect shall be given to the provisions of this By-law.

20. This By-law may be cited as the "Local Improvement By-law, 1898."

Passed by the Municipal Council the 10th day of November, 1898.

Reconsidered and finally passed by the Municipal Council the 25th day of November, 1898.
